

Dear valued agent,

In light of the exceptional operational and security conditions affecting flights to and from TLV, Challenge Airlines will implement a WAR surcharge effective March 4, 2026 (based on flight date), as follows:

- EUR 0.60 per kg on chargeable weight for EU-TLV shipments

This surcharge will apply to all ongoing consolidations and direct agreements and will be charged separately from the applicable airfreight rates.

Any deviation from the agreed volumes/allocations will be subject to Challenge approval.

We appreciate your understanding and continued cooperation.

Please do not hesitate to contact us should you require any further clarification.

Kind regards,

Eden Hamami
Sales Agent
